

BLUE KOALA

Aloha Residence and Families of Aloha Nursing and Rehab Centre,

The feature film under the code name “**Bad Dog**” is scheduled to film scenes at Aloha Nursing and Rehab Centre and we wanted to provide you with advance notice, and share our filming activities with you.

FILMING SCHEDULED TO TAKE PLACE
June 30, 2023

Although we will be filming on June 30th, there will be light prep work starting Wednesday, June 28th leading up to our filming day. This activity should be low impact and not effect residents or visitors in any way. You may just notice our trucks around the facility and activity in the first-floor common area.

On our filming day, we plan to start our work around 6AM and should finish by 8PM. On this day, there will be more activity than usual in the back area of the first floor with our crew and equipment working. The facility is planning ahead and will have residence of this floor doing activities in a separate section.

Please see a few notes about our filming day:

- Visitor parking will be limited. Please consider getting dropped off as an alternative.
- Be aware that the main check in area may be moved. Please look for signs directing you to the correct entrance.
- All fire lanes and other emergency entrances will remain open for safety.
- All crew members working in the facility will be wearing masks to comply with hospital protocols.

Please be assured that we realize residence and families are the priority and we are guests in this facility. We will make sure our crew is cognizant of the patients, staff, and visitors.

Mahalo for your understanding. Thank you in advance for your support of local production within your community.
